

**Your Machines  
have a lot  
to say.**

**Are you listening?**

90% of your missing capacity  
lies in the top 3 downtime reasons.

## You should be listening.

Regardless of what you operate, understanding when, what and why a problem occurs will change your bottom line. WaveRider is a combination of a data collector you install in your equipment, WaveRider cloud service, and an application you load on your phone, tablet or pc. WaveRider is not a toolkit, but rather a completely developed service that monitors your equipment. WaveRider let's you Listen, Understand and Act, all within seconds, not days.

### Get alerts for current or future problems Your custom alerts via text or email.

What's the difference between profit and loss on your machine or fleet? Timing. Knowing you have a problem, or a condition that's trending towards a problem, is important. Knowing it in near real time is vital.

Timely alerts are the first step in increasing profits, reducing downtime and improving capacity. Active Alerts sends you text and email alerts on any condition you are interested in, on any machine in your fleet. It's all there and completely configurable right from your smartphone, tablet or PC.

### Understand the root cause Downtime information at your fingertips.

Imagine if every machine you operated gave you every downtime event, categorized and analyzed by impact. Imagine if the info was delivered to any device you own in real time, and was available anywhere.

WaveRider Downtime App gives you the information you need to take action, empowering you to increase capacity and decrease costs.

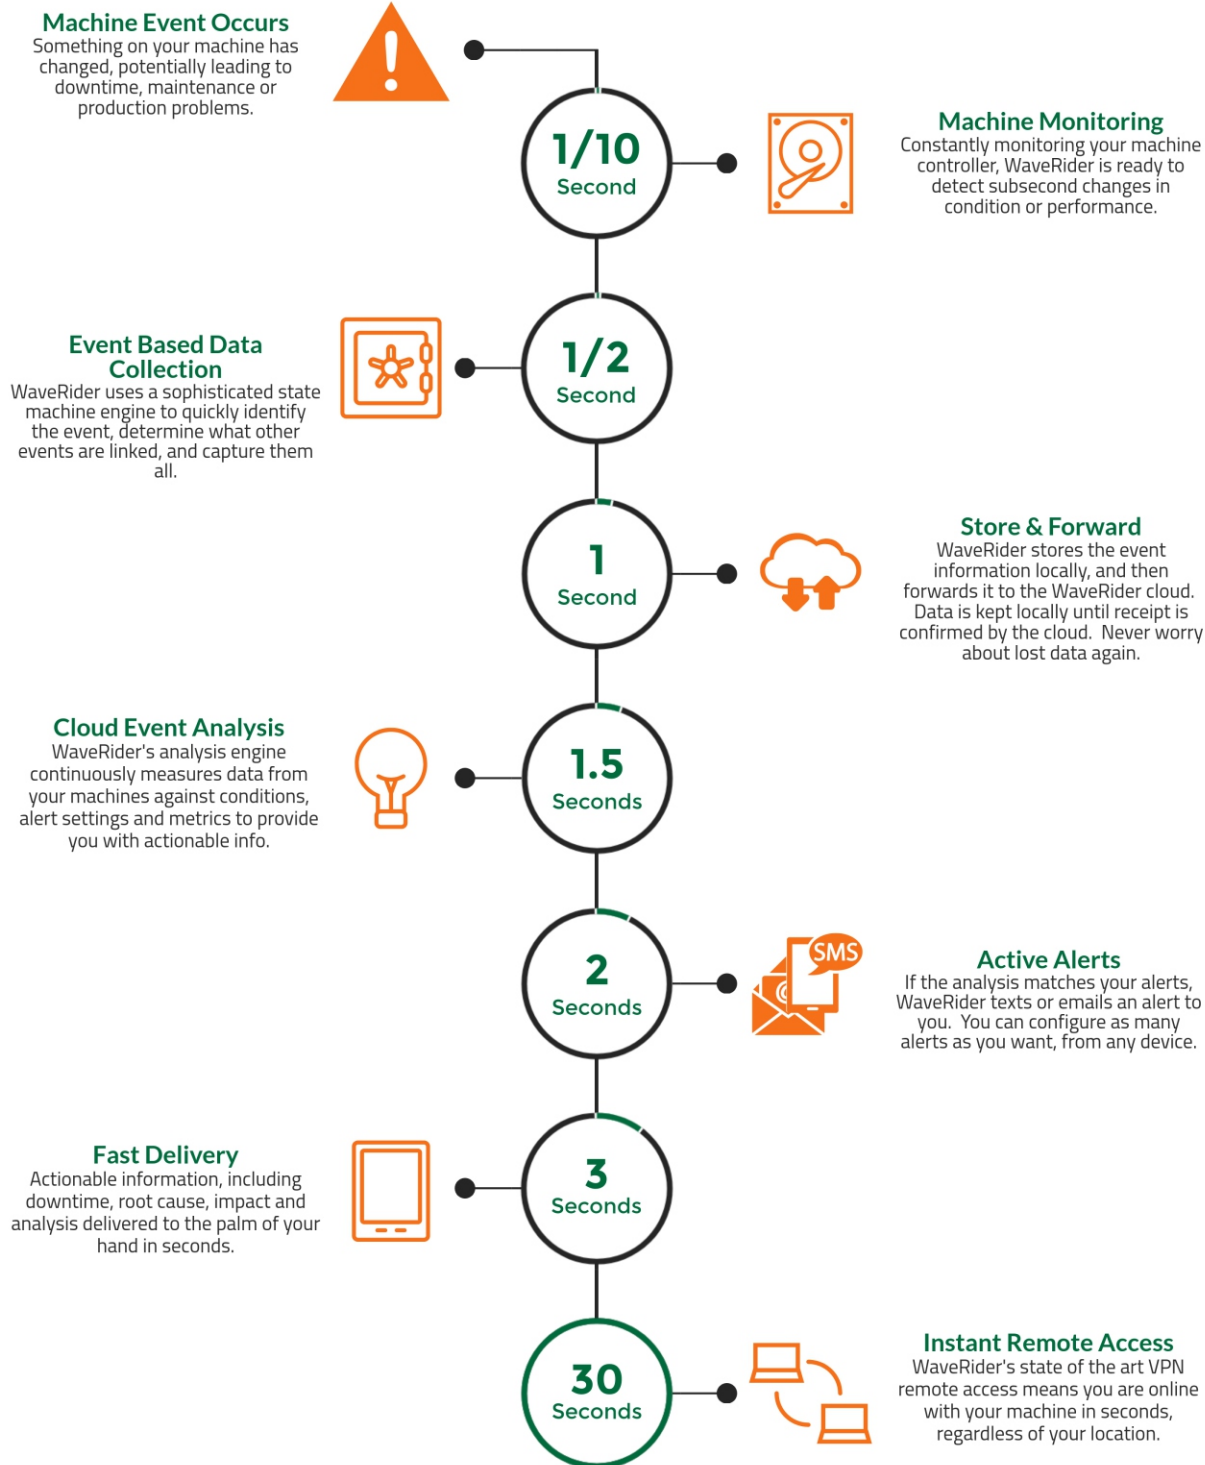

### Fix the problem from anywhere Remote Access - Secure and Fast.

Regardless of location, your engineers can access all of your equipment using our highly secure WaveRider VPN service. WaveRider uses 128bit encryption, is cloud based, and works well with customer firewall's. Use WaveRider from your cell, tablet or PC, load your favorite software, and fix the issue in minutes.

# Listen. Understand. Act.

## How WaveRider works:

# Step 1. Choose your WaveRider Plan and start listening.

Remoter	Metrics	Complete <small>Best Value</small>
<b>\$49<sup>.50</sup></b> /month billed annually	<b>\$149</b> /month billed annually	<b>\$169</b> /month billed annually
<b>Remote Access</b> <ul style="list-style-type: none"><li>• 8 connections</li><li>• Unlimited device access</li></ul> <p>Requires purchase of WaveRider Hardware Bundle (and cell plan if needed).</p> 	<b>Downtime Active Alerts</b> <b>1 Machine</b> <b>1 Concurrent User</b> <p>Requires purchase of WaveRider Hardware Bundle (and cell plan if needed).</p>  	<b>Metrics + Remoter</b> <b>1 Machine</b> <b>1 Concurrent User</b> <p>Requires purchase of WaveRider Hardware Bundle (and cell plan if needed).</p>   

## Step 2. Choose your WaveRider hardware. (specify the method you want to connect to the internet.)

Wired?	WiFi?	Cell?
<b>\$695</b> WaveRider Base Unit 	<b>\$829</b> Base Unit + WiFi Kit 	<b>\$1,595</b> Base Unit + Cell Kit + 1 Year 250Mb Month Cell Plan  <b>verizon</b> 

- Airport Vehicle Monitoring
- Location as a Service
- Production Monitoring
- Fleet Management for OEMs and System Integrators
- Quality tracking
- Predictive Maintenance
